

**ANNUAL ELECTRONIC NETWORK USERS AGREEMENT**

**Application for Student Access and Parent Approval**

School/District computer systems and the Internet are for use by authorized individuals only. Any unauthorized access to these systems is prohibited and is subject to criminal and civil penalties. Individuals using these systems are subject to having all activities on these systems monitored by the system or school administrator. Anyone using these systems expressly consents to such monitoring. Prosecution and/or account termination may occur without warning.

It is possible for all users of the Internet (including your child) to access information intended for adults. Although the Santa Maria-Bonita School District has taken steps to ensure the Internet connection is used only for purposes consistent with the District's mission and curriculum, the District cannot prevent the availability of, nor even begin to identify, inappropriate material elsewhere on the Internet. Computer security cannot be made perfect and it is likely that a determined student can make use of computer resources for inappropriate purposes. This includes the child's accessing of materials to which a parent would otherwise have a right of notice and/or consent to pursuant to state or federal law. Accordingly, the District makes no guarantees of any kind for the Internet service provided to the student, and use of any information obtained via the Internet is at the student's and parent's own risk.

We, \_\_\_\_\_ and \_\_\_\_\_  
(Parent Name) (Student Name)

have read the User Obligations and Responsibilities as outlined in Administrative Regulation AR6163.4(a,b,c), and on Form 1602A hereinafter referred to as the Electronic Network User Rules, and we understand them and agree to adhere to the principles and procedures detailed in that document. We understand and accept the conditions stated above, and agree to hold harmless and release the Santa Maria-Bonita School District, the sponsoring school, its subcontractors and employees from any liability that may be incurred as a result of the user's use of the internet.

I understand that my child is expected to use good judgment and follow the Electronic Network User Rules when making electronic contact with others.

Should my child violate the Electronic Network User Rules, I understand that my child will lose all network privileges on the district network and be subject to discipline up to and including suspension or expulsion.

We understand and agree that any damages, costs or other loss that the District incurs because of any unauthorized misuse or negligence by the user of the network system will be the responsibility of the user and parent/guardian of the user. Therefore, should my child, or myself, as a user of the network system, cause such damages, costs or other loss to the District, I agree to indemnify the District for such damages, costs or other loss. Further, I agree to report any misuse of the network system by my child, or myself, to either the system administrator, the teacher or the school principal. I also accept full responsibility for supervision if and when my child's use of the network system is not in the school setting. I hereby give my permission to issue an account for my child and certify that the information in this form is correct.
