

# Parent Report – Fluency

## Fifth Grade

Fluency in reading is very important. Once students can read quickly and automatically, they can concentrate on the meaning of what is being read instead of just the sounds in the words. This is when comprehension and independent learning takes place.

During our Theme \_\_\_\_\_ assessment\*, \_\_\_\_\_ read \_\_\_\_\_ words correct per minute.

Below you will find grade-level fluency standards for fifth grade:

<b>Theme</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	<b>6</b>
<b>Words correct per minute</b>	110	119	127	131	135	139

\* Based on Reading Lions/SCOE assessment measures

Please practice reading with your child each night to raise the level of words read per minute. Read and reread the Reader's Library books being sent home. Have your child read and reread his/her favorite books. Reading to your child also builds fluency; you are modeling what fluent readers sound like.

Great job! Continue reading nightly with your child.
