

WHEN WRITING A PROBLEM-SOLUTION ESSAY

BE SURE TO:

- ✓ Begin by clearly stating the problem.
- ✓ Describe what you did first to solve the problem.
- ✓ Write what happened because of this attempt to solve the problem.
- ✓ If the first idea didn't work, describe what you tried next.
- ✓ Tell what happens with the second idea.
- ✓ Keep trying different ideas until the problem is solved.
- ✓ End by telling how the problem is solved. Why did this solution work?
